Summary

Enthusiastic Computer Science graduate with a foundational understanding of Python, SQL, Power BI, and basic machine learning concepts. Familiar with software development and data analysis, and eager to learn and grow through real-world projects in a dynamic tech environment.

Education

The Prime Academy, Indore, Madhya Pradesh

10+2 | Year of Completion : 2019, 2021

Percentage : 78, 76

Medicaps University, Indore, Madhya Pradesh

Bachelors of Technology in Computer Science and Engineering | Year of Completion : 2025

CGPA : 7.1/10

Relevant Coursework

Data Structures and Algorithm, Object-Oriented Programming, Machine Learning, Web Development, API development, Database Management System, Software Engineering, Core CSE concepts.

Experience

Python-ML | Intern | Alveofit (Roundwork Technologies)

Feb 2025

- Extract cough and asthma data from various sources, learn about Machine Learning (XGBoost models).
- Responsible for making ML models by data cleaning, processing and feature engineering, then storing models in .pkl format for using it further.
- Created working api using flask which give recommendation of treatments based on patient's disease and symptoms.

Junior Consultant(dotnet) | Intern | Hosho Digital

July 2025 - Present

- Completed the Data and AI module in the first month using Microsoft Power Platform.
- Gained hands-on experience in pro-code development with .NET during the second month.
- Contributed to a real-world project, handling Change Requests (CRs) and implementing enhancements using .NET.

Technical Skills

Programming Languages : Python, SQL.

Frontend Development : HTML, CSS, Bootstrap, Tailwind, Jinja

Backend Development : Fast API, Flask, Django

Data Analysis and Machine Learning : NumPy, Pandas, Scikit-Learn, Seaborn, Matplotlib, Power BI.

Development Tools : Git, Github, VS Code, Pycharm, Postman.

Certifications

Microsoft Power BI - Data Analysis and Visualization

Alteryx - Data preprocessing tool
